Similarly, the didactic function of a ïdeo is to guide the reader into the world of the text, to make them think about the ideas presented, and to encourage them to reflect on their own experiences and beliefs. The author uses the novel to provoke thought and encourage the reader to question their own assumptions and prejudices.

In other didactic novels, the author employs a more explicit form of didacticism. In such novels, the author is not content simply to let the reader draw their own conclusions. Instead, they actively guide the reader through a series of lessons, each of which is designed to teach a particular lesson. These lessons are often presented in the form of dialogues or conversations, in which the author and other characters discuss the issues at hand.

The author of this novel is particularly skilled at using didacticism to teach important lessons about morality and society. Throughout the novel, they present a series of moral dilemmas and encourage the reader to consider the consequences of their actions. By doing so, they hope to persuade the reader to adopt a more virtuous way of life.

In conclusion, the didactic function of a novel is a powerful tool that can be used to influence the reader's thoughts and actions. When used wisely, it can be a valuable way of teaching important lessons about the world and ourselves.
